

New Aboveground Heating Oil Storage Tank Installation Rebate Submission Form

PRE-APPROVAL IS REQUIRED

This form must be completed in full by a registered Oil Dealer, including project invoice. Submission of the application form constitutes a representation on the part of the participating dealer that the work shown on the form has actually been completed. The dealer must confirm with NCPCM staff that funds are available and that the project has been approved PRIOR to the purchase and installation of the equipment.

This form and invoice showing purchase of each tank must be submitted to NCPCM for the customer to be eligible for consideration of any rebate(s). Failure to furnish all necessary documentation will result in the customer being declared ineligible for consideration of any rebate(s). The North Carolina Petroleum & Convenience Marketers assumes no liability for a customer being declared ineligible for consideration of any rebate(s).

The NCPCM UPGRADE AND SAVE – NC Rebate Program is for the installation of a new aboveground heating oil storage tank to replace any existing aboveground or underground storage tank. Aboveground tanks include those located out of doors or inside a property, including basements. It does not apply to any storage tanks installed and buried underground. Dealer must provide a Fuel Oil Storage Tank Evaluation Form for each application submitted. Forms can be downloaded at UpgradeAndSaveNC.com. Maximum 2 tanks per location.

\$500.00 rebate for tank installation upon submittal of proper form(s) and invoice for new tank.

***DISCLAIMER:**

The North Carolina Heating Oil Dealer seeking a rebate must submit a full and complete Application Form. Submission of the Application form constitutes a representation on the part of the participating Dealer that the work shown on the form has actually been completed. A validation inspection must be performed by the participating Dealer after the installation of each new qualifying appliance(s) and the result of that inspection must be documented on the Application form. The Dealer agrees to comply with all rules and regulations governing the installation of the qualifying oil-fired appliance, the manufacturer's installation instructions, and all applicable Building Codes. NCPCM assumes no responsibility whatsoever for the installation, inspection, or testing of the qualifying appliance(s) or any associated oil storage/piping system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying appliance(s) or the associated fuel oil storage/piping system. NCPCM disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance(s). This rebate is not affiliated with any other HVAC rebate programs.

Applicant, by submitting a rebate application, agrees that NCPCM is an authorized agent for National Oilheat Research Alliance (NORA) which was created by Congress under the National Oilheat Research Act of 2000 ("the Act"). All rebates are funded through funds collected by NORA as authorized by the Act. NCPCM does not provide rebates from its assets but merely acts as a conduit for the NORA program. The NORA rebate program may be withdrawn at any time, before or after an application for rebate has been filed. In such event, Applicant agrees that NCPCM shall have no liability if the rebate is not honored or funded under the NORA program for any reason.

Additional rebate forms may be obtained by downloading at www.UpgradeAndSaveNC.com.
